

Franco Olmedo

Electronics Technician · Electronic Engineering Student (UTN FRC)

Villa Allende, Córdoba, Argentina | +54 9 351 248-7080 | olmedo.franco.fo@gmail.com | francoolmedo.github.io

PROFILE

Electronics technician graduated with merits from ITS Villada and advanced student (4th year) of Electronic Engineering at UTN Córdoba (FRC). Since 2019 I have delivered real-world electronics projects: multilayer PCB design and production, embedded firmware, industrial automation and engineering software. I work with engineering tidiness: complete documentation, testing and properly finished deliveries.

EXPERIENCE

POL SRL — Intern, Automation & Environmental Eng.

2026 — *present*

- Internship in environmental engineering: process automation, project management, web design and database management. Development of biodigester, biochar and vermifilter projects for wastewater treatment.

Contraut SAS — Junior Electronic Engineer

2022 — *present*

- Design and production of in-house PCBs integrating CNC environments: circuits, prototyping, analysis, production and testing. Microcontroller programming (PIC, dsPIC, ATmega, Xilinx).
- Turn-key projects: vision-based seed potato classifier (AgroPlant), pyrolysis plant control and telemetry (MixOil V5), test benches and acquisition systems for FAESA and Astillero Río Santiago.

Freelance — Designer & Technician

2021

- Automation and commissioning of 3 CNC machines: electrical panel, controller-PC communication, programming and spindle drive parameter tuning.

Blockstrong Motors — PLC Designer & Programmer

2020

- Automation of a truck-engine honing machine (4-6 cyl.) with a Siemens S7-200: ladder, inductive sensors, air gauge, servomotors and spindles. User and operation manuals.

Freelance — Designer & Technician

2019 — 2021

- Development and production, with kinesiologists and physiotherapists, of a headset adaptation with an LED system to assist patients with Parkinson's and/or partial paralysis.

FEATURED PROJECT

ElectronArt — Own EDA Suite

Development of an all-in-one desktop EDA (Python, PySide6/Qt, NumPy/SciPy): ANSI/IEC schematics, multilayer PCB, SPICE and MCU-firmware simulation, 3D viewer and educational mode. Verification suite with 111 automated tests. Cross-platform (Windows/Linux/macOS).

EDUCATION

Electronic Engineering (in progress, 4th year) — UTN Córdoba (FRC)

2022 — *present*

Electronics Technician — ITS Villada

2020 — *Graduated with merits*

SKILLS

PCB & Circuits	Altium Designer, multilayer PCB, schematics, footprints, Proteus, LTspice
Embedded	C/C++, Python, PIC/dsPIC, ATmega, ESP32/MicroPython, Verilog/HDL (Xilinx)
Automation	Siemens PLC (ladder), CNC/Mach3, electrical panels, sensors and actuators
CAD & Mechanical	Fusion 360, SolidWorks, AutoCAD, QElectroTech, 3D printing (STL/STEP)
Software	PySide6/Qt, NumPy/SciPy/OpenCV, Git, embedded web GUIs
Languages	Spanish (native) · English C1 · German A2

AVAILABILITY

Part-time position (preferably morning hours), remote or on-site in Córdoba. Hours and days negotiable. Immediate availability.
